Professional Experience

Luxodd Games | Partnerships and Business Development Lead

February 2025 to present

- Closed approximately 20 commercial relationships across venues and partners, representing approximately 40 Rook placements and \$320,000 in equipment value at \$8,000 per cabinet.
- Exceeded a monthly target of 10 new deals, partners and channel partnerships every month, owning opportunities from initial contact through discovery, demonstrations, proposals, negotiation and agreement.
- Developed account-specific propositions and handled difficult negotiations, including Claw City. Reworked a venue rewards proposal to address operational concerns and keep a placement opportunity moving to agreement.
- Generated 13 product demos in a 60-day sprint. Coordinated and participated in online and in-person discovery and demos, including PRGE 2025 and 2026 conversations with venue owners and studios.
- Built the publisher licensing channel from zero, with 60+ publishers approached, 11 positive replies, 4 calls and 9 tailored proposals in an earlier cohort. Closed commercial relationships including Mega Cat and PayRange.
- Designed and ran an AI-assisted outbound operation around 4,993 lead records across five audiences. A recorded October cohort achieved an 11.9% reply rate and 4.5% positive-response rate.
- Trained and led two junior BDRs. Worked across a 17-person cross-functional team, translating customer needs into product input on attractor screens, leaderboards and Merchant Rewards.
- Built enrichment and outreach automations, improved the website and inbound customer experience, and maintained account context, follow-up commitments and commercial next steps across partner relationships.

Panacea | Customer Lifecycle and Retention Manager

August 2022 to January 2025

Full time through February 2024; freelance from March 2024 to January 2025.

- Replaced an external agency averaging approximately \$38,000 in monthly email and lifecycle revenue. Exceeded a \$60,000 monthly target in about two months and established \$60,000 as the new benchmark.
- Reached approximately \$80,000 in occasional peak months, equivalent to 133.3% of target. The \$60,000 benchmark represented approximately 57.9% growth over the previous agency baseline.
- Managed more than 50 customer accounts, approximately 30 concurrently, connecting account goals, lifecycle communication and campaign execution with whether customers were receiving value.
- Introduced conditional logic and deeper behavior and intent segmentation in ActiveCampaign and GA4. Retargeting campaigns generated repeat purchases for customers including Cancer Decoded.
- Generated approximately \$28,000 in a two-week reactivation campaign and delivered conversion improvements up to 32%. Managed a 200,000+ subscriber list and reciprocal affiliate-partner promotions.
- Shared discovery and campaign feedback with customer support, and trained and led two team members to improve coordinated execution against revenue and customer goals.

Professional Experience Continued

Independent via Upwork | Client Success and Account Manager

June 2020 to April 2022

- Owned more than 40 B2B and B2C client relationships across technology, healthcare, real estate and nonprofit accounts, from discovery and kickoff through delivery, retention and account expansion.
- Translated customer goals into campaign, content and conversion priorities. Managed proposals, expectations, feedback and delivery communication while keeping the work connected to the commercial problem.
- Developed repeat engagements and upsell opportunities by understanding customer needs beyond the first project and identifying additional work that could deliver practical value.
- Built a foundation in persuasive copywriting, digital marketing and client communication. Career-wide work contributed to more than \$1 million in client revenue across commercial and growth engagements.

Host Sailor | Marketing Assistant

April 2019 to June 2020

- Created 21 client enablement documents and 13 training resources for IPv6 hosting, making technical product information easier to understand and use during onboarding and adoption.
- Worked across a six-person product, documentation and customer-facing team to connect customer questions with accurate guidance, training material and product explanations.
- Supported marketing communication and customer education, developing the ability to translate technical detail into clear customer value and usable next steps.
